

Venetian Blinds

Create light control and privacy with this design classic

Classic precision

A design becomes a 'classic' because it never loses its relevance. Which is why Luxaflex® Venetian Blinds have been a style staple since their launch in the late 1950's. Made of recycled aluminium, they deliver both the sophistication and eco credentials that modern homes demand. With our unique commitment to innovation we've taken our original window blind to the next level with new materials, finishes and advanced operation choices.

SUSTAINABLE BY DESIGN

Since the 1970's Luxaflex® has been producing Venetian Blinds with recycled aluminium, with up to 98% recycled content today. Our design classic is also Cradle to Cradle Certified™ at the Bronze Level. This means that all the components and coatings do not contain substances which can be harmful to people or the environment. It also includes the responsible use of water and energy, respect for people and the planet.

THE NEW COLOUR REVOLUTION

Our 'Pure Sense' range can transform the atmosphere in any room and is available in 33 colours from classic tones to on trend hues. The special anti-static finish on the slat is designed for easy maintenance. Ask to see our unique two-tone slats with one side designed to enhance the available daylight and the other to create a richer tone for cosy, intimate evenings.

SIZE IT UP

Privacy and light management matter, but so does the view. If you want to focus on yours, our unique MegaView® Venetian Blinds close and tilt just like a normal blind, but when open reveal twice the view to the outside.

DESIGN OPTIONS

NATURAL BEAUTY

Bring the warmth and sensuality of wood home with one of our 10 elegant wood valances and matching bottom bar options to add a sophisticated finishing touch to your venetian blinds.

ON TAPE

Blend gently, contrast vividly or add a subtly detailed pattern with our linen effect tapes. With a new 10 mm slim line tape joining our 25 and 50 mm sizes, they offer another exciting way to personalise your new venetian blind design.

DESIGN XL

This new style venetian blind seamlessly integrates modern edged design with a mix and match top headrail and bottom bar in white, silver or black finishes. Combined with a decorative tape, this sharp contemporary design sits elegantly in larger windows.

POWerview® AUTOMATION

Our award-winning smart home system operates with Apple Home Kit, Amazon Alexa, Google Home, Nest and many more, or as a standalone App or controller. You can use it to help wake you up, improve security or change the mood - automatically. With an intuitive digital interface and controllable from your smart device, your Luxaflex® Venetian Blinds can now be part of your intelligent home.

LITERISE®

It's easier than ever to operate your blind. Simply push up to raise, pull down to lower and tilt the wand or bottom rail for extra privacy, and your blind stays right where you place it. Now available with 25 mm and 50 mm slats making your new venetian blinds cord and clutter free.

DESIGNED WITH SAFETY IN MIND

We consider child safety a top priority. Making child safe products for homes is an integral part of our design philosophy. From effortless manual controls to fully smart home motorised systems, Luxaflex® offers many innovative lifting systems designed with safety, comfort and style in mind.

CONTROLLED LIGHT, SMOOTH MOVEMENT

Delivering the optimum in variable visibility, our patented Top Down / Bottom Up Venetian Blinds allow you to decide just how much privacy and light coverage you want at every window. All operated by a neat handle incorporating a slider to tilt the slats, always within reach of the headrail or bottom bar and available in three colours: white, silver and black.

TRUFIT® SYSTEM

For UPVC windows, our optional TruFit® system is a seamless way to install blinds directly onto the glass without drilling your window frames. This unique system can also be used for Tilt & Turn windows and doors, allowing them to be opened with the blinds in place.

FRAMEFIX™

Our latest solution is the new FrameFix™ system. The magnetic frame attaches directly to the UPVC or aluminium window frames so no damage to the window structure. FrameFix™ offers enhanced light control, sits neatly in the window and can easily be removed for window cleaning and is also available with Top Down / Bottom Up operation.

At Luxaflex® our window treatments start with great design. Light control, energy efficiency, and the convenience of motorisation are just some of the innovations that enhance the beauty of every room, every day – made to measure with a five-year guarantee.
