Child Safety

All of our products meet with the child safety requirements of EN 13120:2009+A1:2014, Internal blinds – performance requirements including safety.

Safety devices

Chain (mono) operated blinds:

Shall be supplied with a tensioning device to keep chain loop under constant tension. This device **MUST** be fitted at the point of installation to ensure compliance with the child safety requirements of EN13120:2009+A1:2014.

Cord traverse/chain tilt:

Shall be supplied with a tensioning device to keep chain loop under constant tension. This device **MUST** be fitted at the point of installation to ensure compliance with the child safety requirements of EN13120:2009+A1:2014.

Control lengths

As a requirement of the new standard, the maximum control length is determined by the safety device used on the product as well as the drop of the blind or installation height. The chart below details the maximum length available for raise/lower cords, tilt cords and cord loops.

Maximum control lengths

Safety device used	Installation Height	Max control length
All systems	Not known and drop of blind up to 2.5m	Up to 1m
	Not known and drop of blind over 2.5m	Blind drop less 1.5m
	Known	Distance from floor to end of control to be at least 1.5m

Dealer website

<http://dealers.luxaflex.co.uk/>

On the dealer portal you can find the most up to date lead time, and product information as well as order forms.

- Luxaflex® digital ordering system "Connect": www.luxaflexconnect.co.uk

Please note the following important information:

- All text, images, interfaces, photos of Hunter Douglas products or otherwise, trademarks, logos, sounds, music and artwork ("the Content"), including but not limited to it design, structure and / or selection, of such content displayed on this Website is owned by or licensed to Hunter Douglas and / or its affiliate companies (collectively "Hunter Douglas").
- The content may be used, but exclusively for the promotion of Luxaflex® products. Any other use of the Content of the Websites is strictly prohibited.
- The material and all related rights remain exclusive ownership of (the subsidiary concerned from) Hunter Douglas, unless expressly different agreed.

HOW TO CALCULATE A PRICE

- Based on your specific width and height, the prices detailed on pages 15 and 16 indicate the price for a standard product. On this page the standard product is defined.
- If applicable, options or alternative controls can be added. After calculating the price for a standard product, the add-on price for an option and the add-on price for the type of control can be added. The total product price is the combination of the price tables, options and alternative control.

HOW TO ORDER

Luxaflex® Connect

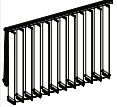

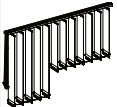

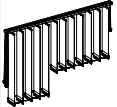

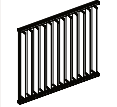

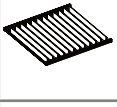

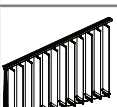

- Instant ordering, 24/7-even when the Luxaflex®office is closed
- Final order input onto our system-no queries
- Full insight into your order history
- Luxaflex® Connect will confirm if the blind is possible to manufacture
- Instant pricing including all product surcharges, with discounts show as a value and not a percentage.
- Available on mobile devices
- Full online programme which means no installation of software is required.

MEASURING

Deductions

Recess size reductions (mm)				
	Width:	Height (A):	Height (B):	C:
Fabric louvres	- 5 mm	- 20 mm	- 38 mm	10 mm
Aluminium louvres	- 5 mm	- 10 mm	- 38 mm	10 mm
PVC louvres	- 5 mm	- 10 mm	- 38 mm	10 mm

X = Distance from the wall to the objects that projects furthest from the wall

Note!: Louvre size = recess size - (measurements A+B)

Recess size reductions to louvre size

Recess size reductions to louvre size (mm)			
	Ceiling bracket:	Ceiling bracket with screw:	Extension bracket:
Fabric louvres	- 58 mm	- 56 mm	- 65 mm
Aluminium louvres	- 48 mm	- 46 mm	- 55 mm
PVC louvres	- 48 mm	- 46 mm	- 55 mm

Stack sizes

The stack widths are indicative.

Product width (mm):	Single stack (left or right side)				
	52 mm	63 mm	70 mm	89 mm	127 mm
1000	230	200	180	160	150
2000	420	360	320	270	220
3000	610	520	460	370	300
4000	800	690	610	480	370
5000	1000	850	750	590	440
6000	1200	1000	890	700	520
7000	1380	1160	1030	810	600

Product width (mm):	Split and Centre stack				
	52 mm	63 mm	70 mm	89 mm	127 mm
1000	2x 130	2x 120	2x 120	2x 110	2x 110
2000	2x 230	2x 200	2x 180	2x 160	2x 150
3000	2x 320	2x 290	2x 250	2x 210	2x 190
4000	2x 420	2x 360	2x 330	2x 270	2x 220
5000	2x 520	2x 450	2x 400	2x 320	2x 260
6000	2x 620	2x 520	2x 460	2x 370	2x 300
7000	2x 710	2x 600	2x 540	2x 430	2x 330

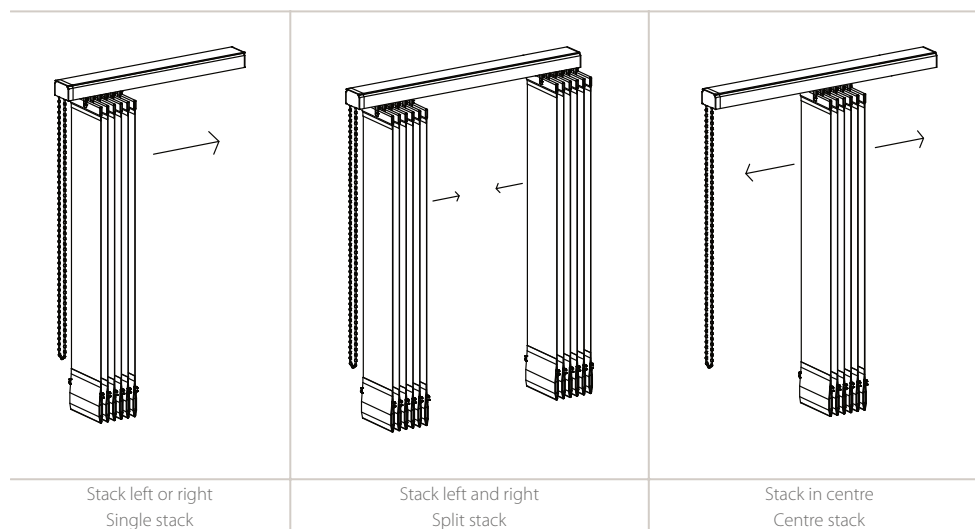

Stack sizes with Flexible endstop

Product width (mm):	Single stack (left or right side) with flexible endstop				
	52 mm	63 mm	70 mm	89 mm	127 mm
1000	220	190	170	140	100
2000	420	350	310	250	180
3000	600	510	450	350	250
4000	800	670	590	460	320
5000	990	830	730	570	400
6000	1190	990	870	670	480
7000	1380	1150	1020	780	550

Product width (mm):	Split and Centre stack with flexible endstop				
	52 mm	63 mm	70 mm	89 mm	127 mm
1000	2x 130	2x 110	2x 100	2x 80	2x 70
2000	2x 220	2x 190	2x 170	2x 140	2x 100
3000	2x 310	2x 270	2x 240	2x 190	2x 140
4000	2x 420	2x 350	2x 310	2x 250	2x 180
5000	2x 510	2x 430	2x 380	2x 300	2x 210
6000	2x 610	2x 510	2x 450	2x 350	2x 250
7000	2x 700	2x 590	2x 530	2x 410	2x 290

Note!: When choosing a centre stack, you will get a small gap between the two stacks in open tilt position. In closed tilt position there is the same overlap between all the louvres.

Group	Shape	Description	Type	Operation	Louvres in mm			Width in mm		Height in mm		Max. m ² restriction

Note for sloped blinds:

* Max m² depends on fabric and angle, please contact customer service.

Max width = track length

Max angle = 55°

Note for horizontally and vertically curved blinds:

* Max m² depends on fabric and angle, please contact customer service.

Min. width = contact customer service

Max. width = track length

Max. radius/angle = contact customer service

Specific points for attention for the model overview

- Most fabrics do not have a maximum surface restriction and can be made up until the mentioned maximum width and height. See collection overview to see which fabrics do have a max surface restriction.
- Maximum surface restriction in the overview is based on heaviest fabric, please check order entry what the limitations for a specific fabric are.
- Maximum height can be limited per fabric, see details in the collection overview.

Note for sloped blinds:

* Max m² depends on angle, please contact customer service.

Max width = track length

Max angle = 55°

Note for horizontally and vertically curved blinds:

* Max m² depends on angle, please contact customer service. Min. width = contact customer service

Max. width = track length

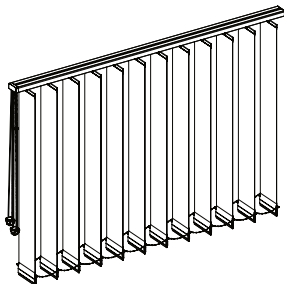

Max. radius/angle = contact customer service

Specific points for attention

- Product size includes mounting bracket.
- Fabric louvres can stretch and shrink over time due to humidity and heat.
- PVC louvres are not suitable for rooms where the temperature can rise extremely high like in greenhouses. This can cause the PVC vanes to twist.

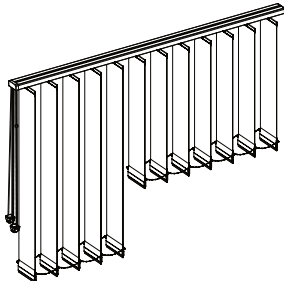

Model description

Standard Vertical Venetian Blind V010

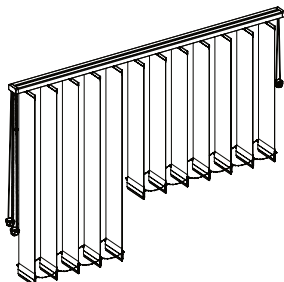

- Operation on left or right side.
- Left, right, split stack or centre stack.
- Centre stack is not possible with wand operation.

Standard with 1 part of shorter louvres V011

- Operation on left or right side.
- Stack on the side of the longest louvres.

2-in-1 rail V013

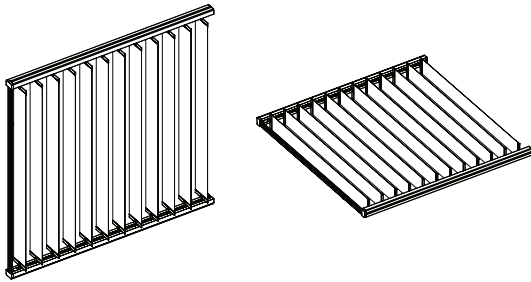

- Operation to open/close on left and right side.
- Tilting on left or right side.

- The two louvre stacks can be operated separately.
- Left, right, split stack or centre stack possible for both stacks.

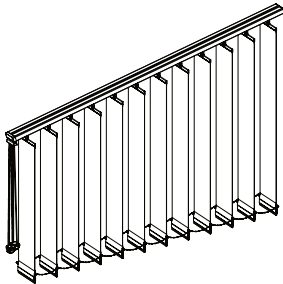

Top-bottom track - wall / ceiling V020/V025

- Operation on left or right side. Left, right, split stack or centre stack Rail
- at top and bottom.
- Only possible with fabric louvres.
- Surcharge.

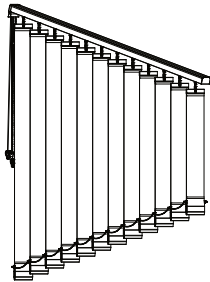

Sloping rail / Ascending louvres V040/V041

- Operation at top or bottom.
- Stack at the top.

- Always specify the recess size.
- When ordering, state the dimensions specified in the drawing and measure frames to the corners.
- With height-adjustable louvre hooks as standard.
- A light gap at the bottom can occur due to the minimum louvre size. Minimum louvre size is 100 mm.
- Surcharge.

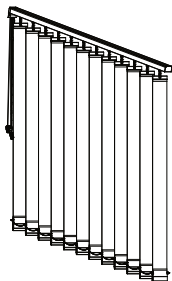

Sloping rail / Ascending louvres V042/V043

- Operation at top or bottom.
- V042: Stack at the left side.

- V043: Stack at the right side.
- Always specify the recess size.
- When ordering, state the dimensions specified in the drawing and measure frames to the corners.
- With height-adjustable louvre hooks as standard.
- A light gap at the bottom can occur due to the minimum louvre size. Minimum louvre size is 100 mm.
- Surcharge.

High slope right/left V044/V045

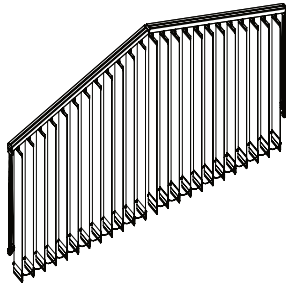

- Operation at top or bottom.
- Left, right, split stack or centre stack.

- Always specify the recess size.
- When ordering, state the dimensions specified in the drawing and measure frames to the corners.
- With height-adjustable louvre hooks as standard.
- Surcharge.

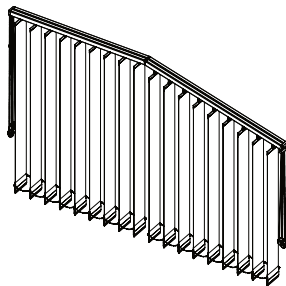

2 sloping rails next to each other V050

- Operation on both outer ends.
- Stack at the top of both products.

- Include a sketch when ordering.
- A light gap at the bottom can occur due to the minimum louvre size. Minimum louvre size is 100 mm.
- Specify overlap only on the non-operating side (no overlap with 52 mm louvres).
- Surcharge.

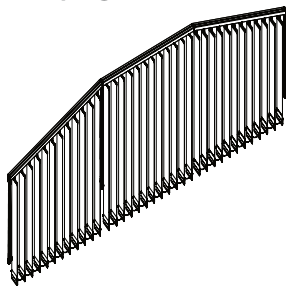

1 sloping rail and 1 straight rail next to each other V060/V061

- Operation on both outer ends.
- Stack at the top of the slope rail product and right, left, centre or split stack for the straight rail product.

- Include a sketch when ordering.
- A light gap at the bottom can occur due to the minimum louvre size. Minimum louvre size is 100 mm.
- Surcharge for the sloped rail.

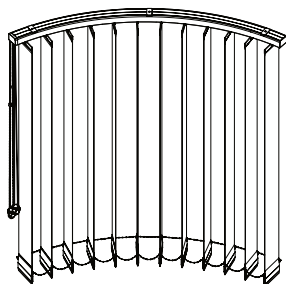

2 sloping rails and 1 straight rail next to each other V070

- Operation on left and right side.
- Stack at the top of the slope rail product and right, left, centre or split stack for the straight rail product.

- Specify overlap only on the non-operating side (no overlap with 52 mm louvres).
- Gap on left or right of middle product due to the control.
- Surcharge for the sloped rails.

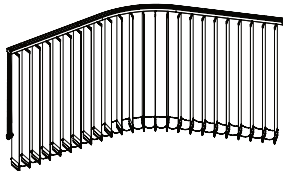

Standard Vertical Venetian Blind - Horizontally curved V080

- Operation on left or right side. Left, right, split stack or centre stack.

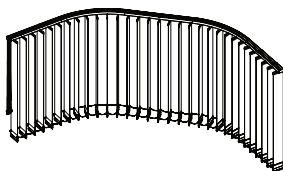

Bay window corner installation - Horizontally curved with 1 curve V081

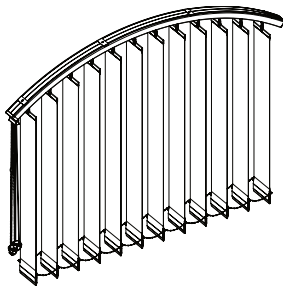

- Operation on left or right side Left, right, split stack or centre stack.
- Include a sketch when ordering.

Bay window corner installation - Horizontally curved with 2 curves V082

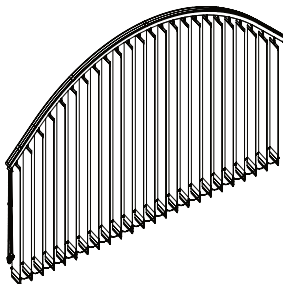

- Operation on left or right side Left, right, split stack or centre stack.
- Include a sketch when ordering.

Standard Vertical Venetian Blind - Vertically curved V090

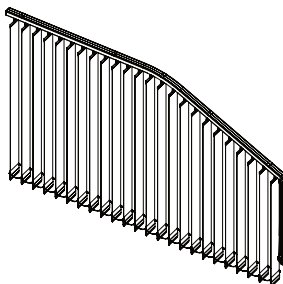

- Operation on left or right side. Centre stack.
- A light gap at the bottom can occur due to the minimum louvre size. Minimum louvre size is 100 mm.

Standard Vertical Venetian Blind with straight ends - Vertically curved V091

- Operation on left or right side. Centre stack.
- A light gap at the bottom can occur due to the minimum louvre size. Minimum louvre size is 100 mm.
- mm.

1 sloping part and 1 straight part next to each other - Vertically curved V092/V094

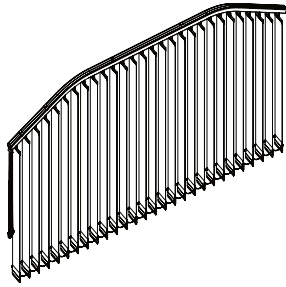

- Operation on left or right side.
- Stack on the top of the rail.

- Include a sketch when ordering.
- A light gap at the bottom can occur due to the minimum louvre size. Minimum louvre size is 100 mm.

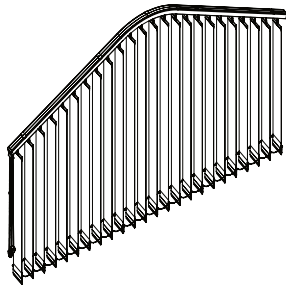

2 sloping parts and 1 straight part next to each other - Vertically curved V093

- Include a sketch when ordering.
- A light gap at the bottom can occur due to the minimum louvre size. Minimum louvre size is 100 mm.

- Operation on left or right side.
- Centre stack.

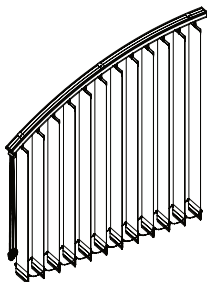

2 sloping parts next to each other - Vertically curved V095

- Fixed radius at the top of 500 mm.
- Include a sketch when ordering.
- A light gap at the bottom can occur due to the minimum louvre size. Minimum louvre size is 100 mm.

- Operation on left or right side.
- Centre stack.

Vertically curved without a top point - Vertically curved V096

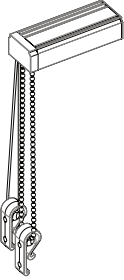

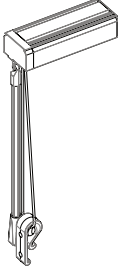

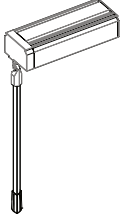

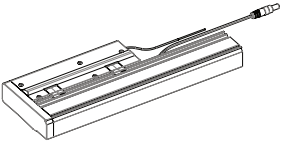

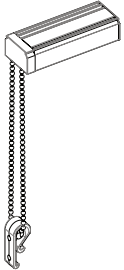

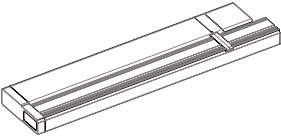

- Control on left or right side. Left or right centre stack.
- The curve of the rail is a segment out of a 90 degrees area. The opening angle is max. 55 degrees.

OPERATION TYPES

All products are produced according to the child safety requirements as written in EN 13120. (Internal blinds - Performance Requirements Including Safety).

Operation types

	<p>Cord - Chain</p> <ul style="list-style-type: none"> · Standard operation type · Tilting the louvres is by metal chain; opening and closing is by polyester cord · Optionally a white plastic chain possible · Polyester cord is colour coordinated and available in 3 colours: white, grey and black · Operation possible on left and right side 		<p>Cord - Wand</p> <ul style="list-style-type: none"> · Tilting the louvres is by transparent PVC wand; opening and closing is by polyester cord · Polyester cord is available in 3 colours: white, grey and black · Transparent wand is 8 mm thick · Operation possible on left and right side. · No surcharge
	<p>Slide - Tilt wand</p> <ul style="list-style-type: none"> · Tilting and opening/closing the louvres is by aluminium wand (max. length 150 cm) · Wand is colour coordinated with rail, except for the brown rail which has a silver wand · Operation possible on left and right side. Only single stack possible, the stack is on the same side as the operation · Not possible with 52 and 63 mm louvres · No surcharge 		<p>PowerView®</p> <ul style="list-style-type: none"> · 18 Volts · Standard straight models with motor always on the left behind the head rail · Total installation depth including rail is 105 mm · Overlap is not possible · Not available with 52 and 63 mm PVC louvres · Not available with sloping version · Surcharge
	<p>Mono command chain</p> <ul style="list-style-type: none"> · Standard metal chain for tilting and opening/closing the louvres. Optional white, grey or black plastic chain possible (with child safe break away device) · Operation possible on left and right side · Not possible with 52 and 63 mm louvres and sloping head rail · Aluminium and PVC louvres do not fully close to one side, for fabric louvres it is completely closing on both sides · No surcharge 		<p>Motorised</p> <ul style="list-style-type: none"> · With built-in 230V transformer · Total installation depth including rail is 105 mm · Motor possible on left and right side. Optionally possible on top of the head rail. Specify by ordering · Optional a motor with built-in RTS receiver is possible · Surcharge

INSTALLATION OPTIONS

Installation options

	<p>Ceiling bracket 32 mm (standard)</p> <ul style="list-style-type: none"> · Only available for straight blinds · Brackets will be mounted out of sight · Available in three colours: white, black and brown · Standard available in stainless steel 		<p>Extension bracket 37 mm</p> <ul style="list-style-type: none"> · Available for straight and curved blinds · Available in different sizes: 60 - 108 mm, 108 - 156 mm, 156 - 204 mm · Colour coordinated and available in three colours: white, black and aluminium · Standard available in stainless steel
	<p>Ceiling bracket 37 mm (standard)</p> <ul style="list-style-type: none"> · Available for straight and curved models · Available in three colours: white, black and brown · Standard available in stainless steel 		
	<p>Ceiling bracket with screw</p> <ul style="list-style-type: none"> · Available for all type of models · Ideal for ceiling systems · Available in two colours: white and aluminium · Standard available in stainless steel 		<p>Extension bracket</p> <ul style="list-style-type: none"> · Available in different sizes: 70 mm - available for 63 and 89 mm louvres, 100 mm - available for 63, 89 and 127 mm louvres · 70 mm bracket standard for 63 and 89 mm louvres · 100 mm bracket standard for 127 mm louvres · Colour coordinated and available in two colours: white and aluminium (black profile is with aluminium bracket)
 	<p>Extension bracket 32 mm</p> <ul style="list-style-type: none"> · Only available for straight blinds · Available in different sizes: 60 - 108 mm, 108 - 156 mm, 156 - 204 mm · Colour coordinated · The extension bracket is available in four colours: white, black, brown and aluminium · The clip attached is available in one colour: white · Standard available in stainless steel 		

Note!: The product size includes mounting bracket for all brackets.

HARDWARE

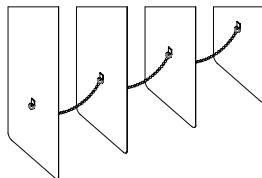

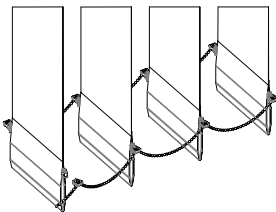

Head rails

Head rail

- Sizes: H = 25 mm, D = 40 mm
- Available in four colours: white (standard), aluminium, black and brown. Black and brown are with surcharge
- By mono command chain and PowerView®, the brown rail is with black end caps, other colours have colour coordinated end caps
- The rail is reversible, except with motorised products
- Available in one concept: extruded aluminium

Linking chain at the bottom

Linking chain

- Fabric louvres come as standard with a metal linking chain at the bottom; available in white and black plastic as an option
- Plastic bottom plate in the fabric louvres is always white
- Aluminium and PVC louvres do not have a connecting chain at the bottom as standard. Aluminium louvres can have an optional punched hole at the bottom for a plastic clip that can be linked with metal chains. Available for a surcharge

Profile colours

Head rail colours

Description:	Extra information:
White	Equivalent to RAL 9016
Aluminium	Equivalent to EV1 / DIN 17611
Black	Equivalent to RAL 9005
Brown	Equivalent to RAL 8077

OPTIONS

Options for louvres

	<p>Sealed bottom plates</p> <ul style="list-style-type: none"> · Availability depends on fabric, see fabric overview or label · Surcharge
	<p>Perfora (PVC)</p> <ul style="list-style-type: none"> · A maximum of two different perforations is possible in one louvre. See options on the samples · For 89 mm louvres, a combination of 0.75% / 3% / 6% or 12% is possible · Other louvre widths always 0% in combination with a 12% perforation option · For availability, see the collection overview or the sticker on the samples
	<p>Multi colour</p> <ul style="list-style-type: none"> · Maximum of 5 colours per blind · Specify colour segments · Surcharge

	<p>Overlap</p> <ul style="list-style-type: none"> · A = Standard, B = with overlap · Always on the non-operating side · Not possible with mono command chain in PVC and aluminium louvres · Not possible with 52 mm louvres · Not possible with PowerView® and 24 Volts motor · With products placed next to each other, the louvre protrudes outside the rail, so that no gap is visible

- The m² limit varies per combination of product width and product height. The indicated two values are:
 - Maximum height that is possible for the maximum width of the chosen operation type (lowest value)
 - Maximum width that is possible for the maximum height of the chosen operation type (highest value)
- If there is only one number the outcome for both is the same (rounded down without decimals)
- There are no m² restrictions for Cord-chain and 230V motor operation products, the full range up until the max width and height is possible.
